

INDRAJITH AN

Senior Technical Lead – Penetration Testing (Cyber Security & Privacy)PriceWaterhouseCooper LLP(PwC), India.

 indu.an444@gmail.com  www.indrajithan.in  [+91-9036695553](tel:+91-9036695553)  www.linkedin.com/in/indrajithan

EXPERIENCE

Senior Security Lead Engineer

PricewaterhouseCoopers LLP (PwC) (9 years of Exp)

 August 2016 – Present || Bangalore, India

- Conducted multiple vulnerability assessments on network devices, servers, and applications.
- Developed and maintained security documentation, including policies, procedures, and incident response plans.
- Assisted in the development and implementation of security awareness training programs.
- Provided technical support to clients and internal teams regarding security-related issues.

TECHNICAL COMPETENCIES

- Proficient in various testing methodologies, including black-box, gray-box, and white-box testing.
- Strong knowledge of web application vulnerabilities (OWASP Top Ten) and secure coding practices.
- Excellent problem-solving skills and ability to identify and remediate security vulnerabilities.

Achievements

- Acknowledged & rewarded by more than **80 organizations** across the globe for reporting security flaws in Google, Microsoft, Apple, Oracle, and more details [here](#)
- Ranked One of the **Top 2** researchers in Yogosha. (Currently)
- Ranked One of the **Top 50** researchers in Intigriti. (During 2021)
- Ranked One of the **Top 90** out of 18,200 researchers in BugCrowd. (During 2018)
- Published 7 CVEs in CISCO Data Center Product:

CVE-2017-12343	CVE-2017-12344
CVE-2017-12345	CVE-2017-12346
CVE-2017-12347	CVE-2017-12348
CVE-2017-12349	

EDUCATION/COURSES

Master of Computer Applications

Amrita University

August 2014 – June 2016 || Mysore, India

RESPONSIBILITIES

(SECURITY LEAD ENGINEER)

1. Application Security

- Defined test scenarios and conducted manual testing.
- Proofs for each identified vulnerability were taken and documented using standard templates
- Presented the risk of vulnerabilities to the stakeholder
- Coordinated and helped the development team mitigate vulnerabilities.

2. Network Penetration Tests (External)

- Performed external/ internal network penetration testing.
- Presented risk of open vulnerabilities to the stakeholder and tracked the closure.
- Discussed mitigation approach with stakeholders.

3. Mobile application Tests

- Worked on Android & iOS application penetration testing.

4. Web Service Tests

- Performed security assessments on REST/SOAP services & GraphQL

5. Compliance/Configuration Audit

- Studied security benchmarks from CIS and customized them as per client organization policies.
- Validated client-server architecture (OS & DB) against the benchmark

6. Cloud Penetration Tests

- Exploited misconfigured instances of cloud-based applications.
- Exploited and exfiltrated data/files from non-secure cloud storage services.

Achievements

Able to attain 3rd rank 🏆 among 90+ hackers in the world's biggest and record-breaking on-site live hacking event at [GISEC Global](#), Dubai.
